**Brief write up about the pipeline :**

**Figure of the development pipeline :**

**Achieved results on validation dataset including :**

- A table of the achieved evaluation metrics on validation dataset for automatic classification, detection, and segmentation of WCE frames.
- Pictures (resolution 600 DPI) of any 5 best frames selected from validation dataset showing its classification, detection, and segmentation.
- Pictures (resolution 600 DPI) of achieved interpretability plot of any 5 best frames selected from validation dataset.

**Achieved results on testing dataset including :**

- A table of the achieved evaluation metrics on testing dataset 1 and 2 (separate)\* for automatic classification, detection, and segmentation of WCE frames.
- Pictures (resolution 600 DPI) of any 5 best frames selected from testing dataset 1 and 2 (separate)\* showing its classification, detection, and segmentation..
- Pictures (resolution 600 DPI) of achieved interpretability plot of any 5 best frames selected from testing dataset 1 and 2 (separate)\*.
